

## **Shaping Due Diligence Together: Perspective of members of the Partnership for Sustainable Textiles on the revised Green Button standard**

The Partnership for Sustainable Textiles (PST) and the Green Button are pleased to invite you to an upcoming Green Button standard consultation roundtable in Berlin, on 22 April 2026, following the launch event of the transformed PST format on 20/21 April.

- The German government-run label Green Button focuses on Human Rights and Environmental Due Diligence at the buyer level and is currently under revision.
- The new standard is scheduled to come into effect in 2027, with a one-year transition period.
- As members of the PST, you are cordially invited to participate in the consultation.
- Your contributions are crucial: insights from the roundtables and the online consultation will be directly incorporated into the revision of the draft and strengthen its practical applicability.
- In addition to the mentioned roundtable, there will be online consultation (details and the draft version will be available from mid-March to mid-May [Weiterentwicklung | Grüner Knopf](#)).

We will bring together members of the Partnership for Sustainable Textiles, including brands, civil society and trade unions as well as Green Button companies to gather feedback from participants to be incorporated into the revised standard. Besides your general feedback we are especially keen to exchange on living wages, environmental due diligence, grievance mechanism and gender aspects embedded in the standard.

We would greatly appreciate your presence and insights, which are essential to shaping practical and credible standards and fostering responsible, competitive textile and apparel production.
