Shaping Due Diligence Together: Industry Perspectives and Manufacturer Feedback

Pakistan Textile Export Association (PTEA), the German government-run certification label Green Button, the STAR-Network and Sustainable Terms of Trade Initiative (STTI) are pleased to invite you to our upcoming industry dialogue and consultation event in Faisalabad, Pakistan, on 09 June 2026.

We will bring together leading textile and apparel manufacturers to discuss trade shifts, due diligence, purchasing practices and to provide input on the Green Button's standard revision.

The first part of the day will be filled with panel discussions and exchanges on trade shifts and competition, purchasing practices and due diligence.

The afternoon is hosted by Green Button, the German government-run certification label for buying brands in Europe (find out more: [Green Button | Grüner Knopf](#)). The certification focuses on Human Rights and Environmental Due Diligence at the buyer level and is currently under revision. The objective of the second session will be to gather feedback from textile and apparel manufacturers, so that the standard is practical and efficient for factories and takes manufacturer perspectives into consideration.
